Statement of Audited Standalone Financial Results for the Quarter and Year ended March 31, 2020 prepared in compliance with the Indian Accounting Standard (Ind-AS)

- 3 The auditors in their report on financial statement for the year ended March 31, 2019 have given disclaimer of opinion on the basis of observations that the Company's operating results have been materially affected due to various factors including non-realization of trade receivables, non-availability of finance due to recall of loans by banks in consortium, legal action initiated by banks against company for recovery of its dues including initiating corporate insolvency resolution process with NCLT under insolvency and Bankruptcy Code and for attachment of company's properties, assignment and transfer of dues of two banks in favor of an asset reconstruction company, pending income tax demands and consequent attachment of bank accounts by Income tax department, reliance on cash sales for meeting out expenses, overall substantial decrease in volume of business and sales, non-payment of statutory dues and taxes, overdue creditors, defaults in repayment of loans and interest to banks, non realization of interest on loans to subsidiary etc, which cast doubts on the ability of the Company to continue as going concern. The management is of the view that due to certain unfavourable developments and sluggish market in earlier periods, the recovery from trade receivables are slow and there is a mismatch in the cash flow resulting in default in payment to creditors, payment of statutory dues and repayment of dues to banks owing to which banks have classified the account as NPA and recalled their loans. The management is hopeful that these trade receivables shall be recovered as the company has initiated legal action by way of sending legal notices and filing court cases. The company has filed legal suits in Mumbai High Court against majority of debtors. Further, the management is taking all possible steps to revive the business operations. The Company has approached consortium bankers and ARC for settlement of loan dues and assumes that Company will have adequate cash flow from export realisation to defray its entire debt obligation and payment to creditors in phased manner. At the same time, management is hopeful that it will be able to raise adequate finance from internal accruals and alternate means to meet its short term and long term obligations. Hence, the accounts of the Company are prepared on going concern basis.
- 4 (a) Trade Receivables, Trade payables/other payables and Loans and advance given to a subsidiary denominated in foreign currency have not been restated based on exchange rate as at the period end and consequential tax impact on above has also not been accounted for. These Trade Receivables and Advances have been carried forward based on exchange rate as at the end of March 31, 2015, March 31, 2016 and / or as at end of March 31, 2017, as it is deemed prudent not to take cognizance of unrealised exchange difference on notional basis due to uncertainties with regard to expected time frame for realisation of Trade Receivables and loans and advances to subsidiary. Consequently, the payment to creditors is also dependent on recovery from these Trade receivables. The company shall account for the actual exchange difference and their consequential tax impact at the time of realization of these trade receivables, Loans and advances and at the time of payment to trade creditors/ other payables.
- (b) As the promoters of the Company have approached consortium banks and ARC for settlement of entire dues, envisaging part-payment of principal amount against working capital loan dues, the Board in earlier year have decided not to provide interest on working capital borrowings availed by the Company. Accordingly, no interest liability has been provided for the financial year ended March 31, 2017, March 31, 2018, March 31, 2019 and March 31, 2020. Further, no confirmations and/or statements have been received from lender banks having outstanding dues amounting to Rs. 15688.07 lacs, deposit/advance given to an assets reconstruction company amounting to Rs. 1006 lacs and various banks having debit balance of Rs. 39.14 Lacs & credit balance of Rs. 2471.64 at the year ended March 31, 2020. These balances are subject to reconciliation and subsequent adjustments. However, the management to the best of its knowledge and belief have recorded all the transactions.
- (c) Had the exchange gains/loss as referred in para 4(a) above and interest in para 4(b) above been accounted for, the loss after tax in the standalone financials results for the quarter and year ended March 31, 2020 would have been decreased by Rs.1960.61 lacs and decreased by Rs. 1189.20 Lacs respectively.
- 5 The auditors have made observation regarding non recognition of expected credit loss on trade receivables, loan and advances (including accrued interest) given to subsidiary and investment in Optionally Convertible Debentures (including accrued interest). The management is of the opinion that in view of court cases initiated against the trade receivables and looking to the uncertainty regarding time frame and quantum of realisation from these trade receivables, amount of expected credit loss required to be recognized cannot be estimated. The same shall be provided as and when the information regarding quantum and time frame of realisation from these trade receivables is ascertained. With regard to loan (including accrued interest) due from subsidiary, the same is in the nature of long term loan for set up of business of the subsidiary and is part of net investment in the subsidiary. The operation of the subsidiary shall soon be revived and these loans will be recovered in near future. In respect of investment in OCD, the company assumes that the amount shall be recovered as per the terms of repayment.
- 6 With regard to auditors observation in standalone financial statement regarding non-provision for impairment against investment in subsidiaries amounting to Rs. 2.03 Lacs and Rs. 7.44 lacs, the management is of the view that the investment in subsidiary is in the nature of long term investment and the subsidiaries have substantial business value.
- 7 The Company has deposited Rs. 1006 lacs to Alchemist Asset Reconstruction Company Ltd (ARC) as adhoc advance payment/ security Deposit to show its intent of settlement of its dues with three lender banks assigned to ARC. The terms and conditions of the settlement are yet to be finalised.
- 8 **Impact of COVID-19:**
In view of the severe health hazard associated with COVID-19 pandemic, the Government of India declared a lock down effective from March 25, 2020. The Company's operations which were already materially affected due to reasons as stated in Note 3 above, the impact of the COVID-19 pandemic is not material to the current business operations of the Company. As per the management, the Company's future operations are dependent on the recoveries from trade receivables and settlement of its dues with banks/ARC which might not get delayed significantly due to pandemic.
The Company has considered internal and external information up to the date of approval of these financial statements including economic forecast, expected recoveries from trade receivables and settlement of its dues with banks/ARC and expects to recover the carrying value of property, plant & equipment, investments, inventories and other current assets appearing in the financial statements of the Company. The impact of the global health pandemic may be different from that estimated as at the date of approval of these financial statements and the Company will continue to closely monitor any material changes to future economic conditions.

Hence, the accounts of the Holding Company are prepared on going concern basis.
- 4 (a) Trade Receivables, Trade payables/other payables denominated in foreign currency have not been restated based on exchange rate as at the period end and consequential tax impact on above has also not been accounted for. These Trade Receivables have been carried forward based on exchange rate as at the end of March 31, 2015, March 31, 2016 and / or as at end of March 31, 2017, as it is deemed prudent not to take cognizance of unrealised exchange difference on notional basis due to uncertainties with regard to expected time frame for realisation of Trade Receivables. Consequently, the payment to creditors is also dependent on recovery from these Trade receivables. The Holding company shall account for the actual exchange difference and their consequential tax impact at the time of realization of these trade receivables and at the time of payment to trade creditors/ other payables.
- (b) As the promoters of the Holding Company have approached consortium banks and ARC for settlement of entire dues, envisaging part-payment of principal amount against working capital loan dues, the Board in earlier year have decided not to provide interest on working capital borrowings availed by the Holding Company. Accordingly, no interest liability has been provided for the financial year ended March 31, 2017, March 31, 2018, March 31, 2019 and March 31, 2020. Further, no confirmations and/or statements have been received from lender banks having outstanding dues amounting to Rs. 15688.07 lacs, deposit/advance given to an assets reconstruction company amounting to Rs. 1006 lacs and various banks having debit balance of Rs. 39.14 Lacs & credit balance of Rs. 2471.64 at the year ended March 31, 2020. These balances are subject to reconciliation and subsequent adjustments. However, the holding company management to the best of its knowledge and belief have recorded all the transactions.
- (c) Had the exchange gains/loss as referred in para 4(a) above and interest in para 4(b) above been accounted for, the loss after tax in the standalone financials results for the quarter and year ended March 31, 2020 would have been decreased by Rs.1841.38 lacs and decreased by Rs. 1006.56 Lacs respectively.
- 5 The auditors have made observation regarding non recognition of expected credit loss on trade receivables, and investment in Optionally Convertible Debentures (including accrued interest). The management of holding company is of the opinion that in view of court cases initiated against the trade receivables and looking to the uncertainty regarding time frame and quantum of realisation from these trade receivables, amount of expected credit loss required to be recognized cannot be estimated. The same shall be provided as and when the information regarding quantum and time frame of realisation from these trade receivables is ascertained. In respect of investment in OCD, the company assumes that the amount shall be recovered as per the terms of repayment.
- 6 The Holding Company has deposited Rs. 1006 lacs to Alchemist Asset Reconstruction Company Ltd (ARC) as adhoc advance payment/ security Deposit to show its intent of settlement of its dues with three lender banks assigned to ARC. The terms and conditions of the settlement are yet to be finalised.
- 7 **Impact of COVID-19:**
In view of the severe health hazard associated with COVID-19 pandemic, the Government of India declared a lock down effective from March 25, 2020. The Company's operations which were already materially affected due to reasons as stated in Note 3 above, the impact of the COVID-19 pandemic is not material to the current business operations of the Company. As per the management, the Company's future operations are dependent on the recoveries from trade receivables and settlement of its dues with banks/ARC which might not get delayed significantly due to pandemic.
The Company has considered internal and external information up to the date of approval of these financial statements including economic forecast, expected recoveries from trade receivables and settlement of its dues with banks/ARC and expects to recover the carrying value of property, plant & equipment, investments, inventories and other current assets appearing in the financial statements of the Company. The impact of the global health pandemic may be different from that estimated as at the date of approval of these financial statements and the Company will continue to closely monitor any material changes to future economic conditions.
