Audio streaming gains popularity as homebound listeners seek variety

"With the growth of platforms, the need to differentiate will continue to increase, giving rise to the need for varied and exclusive content," said analysts at EY. With an estimated 57.6 million monthly listeners, India is the third-largest podcast listening market after China and the US, according to analysts at PwC. Supported by entry of foreign players and original content on topics including news, society, culture and sports, the country's monthly podcast listener base is expected to grow at a CAGR of 30.4% between 2020-2024, they said.

Rest of IPL matches to be played in UAE

"...the other thing that's going to happen here is that the absence of the IPL games in India will also have an impact on advertising revenue," The Walt Disney Company that owns Star India had said earlier this month. Disney had said it expected the pace of addition to the total subscriber base of its direct to consumer businesses to decelerate in the second half of fiscal 2021 partly due to the abrupt suspension of the Indian Premier League (IPL) in India. Disney+ (branded as Disney+Hotstar in India) contributes significantly to the firm's direct-to-consumer segment.

A washout year for passenger commercial vehicle segment

"Moreover, many private schools have been drained of their resources, as some states didn't allow them to charge full fees from students during the lockdown, and so they may invest cautiously," Preetam Mohan Singh, SVP, automotive, Praxis Global Alliance, added that there has been and will be a big-time impact on buses. "Tourism has once again stopped and schools are still closed. The other major buying segment is intercity coaches, but with people increasingly using private vehicles for intercity travel, sales of buses may not revive for quite some time," he said. "While the trucks sub-segment, linked to movement of goods, may not be severely impacted, the buses sub-segment depends upon reopening of schools, intercity travel, tourism and industrial activity (for ferrying office staff), and it will get negatively affected for sure," added Indermohan Singh, partner, Shardul Amarchand Mangaldas. A glimmer of hope could be the replacement demand coming from state transport undertakings (STUs); in this year's Union Budget the government allocated ₹18,000 crore for renewal of urban public transportation by deploying public-private partnerships to operate over 20,000 buses. "The revival of sales of buses this year will depend upon the interplay

of tailwinds in the form of Budget push of ₹18,000 crore to support acquisition of 20,000 buses, push by state governments like Delhi, Tamil Nadu and others, and commercial vehicle scrappage policy; and headwinds in terms of short-term impact on shared mobility options on account of the pandemic, subdued demand of school buses and lower than planned allocation on the announced policy/schemes owing to tight finances at both the Centre and state levels," said Alok Verma, growth advisory partner, Grant Thornton Bharat. Kamal Bali, president & managing director of Volvo Group India added that it's time for states to create capacity and make public transport more efficient and of better quality. "It'll pay back in the long run

as we have very low penetration of buses in our cities," he said. Sangma-led GOM to examine GST cut

The GOM will submit its report to the GST Council by June 8 for the Council's consideration. Besides convenor Sangma, the other members of the GOM are Gujarat deputy CM Nitinbhai Patel, Maharashtra deputy CM Ajit Pawar, Goa transport minister Mauvin Godinho, Kerala finance minister KN Balagopal, Odisha finance minister Niranjan Pujari, Telangana finance minister T Harish Rao and UP finance minister Suresh Kumar Khanna. Currently Covid vaccines attract 5% GST for domestic supply and commercial import, the fitment committee is learnt to be asked for retaining the rate. As for oxygen concentrators, medical grade oxygen, pulse oximeters and Covid testing kits, 12% GST exist on domestic supplies and commercial imports. The committee favoured cutting the rate to 5% till July 31. No change in rates was recommended by fitment committee on ventilators (12%), N95 mask/surgical masks (5%), RT-PCR machines (18%).

Corporates show big heart with Covid care

Flipkart said it will cover 100% vaccination cost for all its employees, including five dependents each. Besides

partnering with hospitals to facilitate vaccination camps at its offices, the company is also working closely with partners to offer a range of services to its corporate and supply chain staff. Byju's has set up a ₹20-crore CEO's fund to cover Covid-related medical expenses for employees and their dependants. Swiggy has implemented a four-day work week for the month of May. Oyo Hotels & Homes has shifted to a four-day work week for the months of May and June while also launching a policy of no questions asked flexible infinite paid leave. upGrad has procured oxygen concentrators in Mumbai, NCR, Bengaluru (to be extended to more cities) which they are distributing among employ-

ees and their family members pan-India as per need.

Free education, ₹10-lakh corpus for Covid orphans

"The PM said in such trying times it is our duty, as a society, to care for our children and instil hope for a bright future. All children who have lost both parents or surviving parent or legal guardian/adoptive parents due to Covid-19 will be supported under PM-CARES for Children scheme," said a statement. The PMO said children under 10 years will be given admission in the nearest Kendriya Vidyalaya or in a private school as a day scholar. Those between 11-18 years will be given admis-

sion in any central government residential school such as Sainik School and Navodaya Vidyalaya.

If the child remains under the care of a guardian or extended family, then he or she will be given admission in the nearest Kendriya Vidyalaya or in a private school as a day scholar. For higher education, children will be assisted in obtaining education loan for professional courses or higher education in India as per existing norms.

The interest on this loan will be paid from the PM-CARES fund.

Scholarship equivalent to the tuition fees for undergraduate or vocational courses will be provided under the central or state government schemes.

Nutrason is a food brand that is concerned with a healthy lifestyle. A healthy lifestyle starts with eating right. Nutrason aims at providing healthy and hundred percent Natural and chemical-free food products, directly from the farm to the consumers.

In this pandemic, we all are talking about boosting our immunity but eating enough nutrients is important for our health and the functioning of our cells including the immune cells. Nutrason provides multiple products with a high nutritional value that will strengthen your immunity. It comes like a savior in today's time.

Today when we are talking about the importance of health Shrikant Hambarde, Nilima Deshmukh, Mitali Wankhade, and Jasmine Babbar came up with an initiative towards supporting a healthy lifestyle for people with Nutrason where they practice fair trade, ethical sourcing and bringing hundred percent natural and chemical-free products to the consumer.

This idea originated around 2-3 years ago but they decided to launch during the Pandemic understanding the need of the hour.

Moreover this Maharashtra based brand which has not just given consumers a way to a healthy lifestyle is laid on foundation of ethically growing crops and promoting chemical free farming and processing. In turn giving farmers a reason to grow crops chemical free. A sale from their brand helps local farmers with opportunity of natural farming and helps a farmer family which they believe is the backbone of the nation

In the larger picture there is lack of availability and access to healthy food. It is a fact that we can have much easier access to junk and chemically processed food as it is easily available at a much lower price.

To cater to all the problems concerned with healthy food they created a brand Nutrason that tries to be affordable and easily available all over the country at your doorstep. Also, it provides ready multigrain flours which saves time and promotes healthy home-cooked food.

Nutrason also provides premium premix of ragi idli, ragi dosa that are gluten-free and of high quality with easy recipes. Ragi is not only rich in protein but also a

powerhouse of calcium. Ragi is also good for skin and hair. Bajra flakes and Jawar flakes which are high in proteins and fiber are also available. Multigrain Dalia is another easy-peasy breakfast option with high nutritional value. Nutrason also provides a wide range of healthy snacks that you can munch. The Bajani Chakli, Batata Chivda (upwas special), Namak pare, Patal pohe chivda, Puneri misal farsan, and Sabudaana Chivda is available for your hunger pangs. Shankarpale, Rajgira cube, or Rajgira Laddu (upwas special) is also available which will satisfy your sweet tooth.

To beat the summer heat organic gulkand is one of the best options that you can try from Nutrason. Organic brown sugar, Organic Jaggery powder, Organic raw honey, Organic white sugar are healthy sweeteners available.

ADVERTORIAL

Organic pulses and grains that include Bajra, Chana, Chana Dal, Chawali, Jawar, Kabuli Chana, Masur Dal, Moong, Mix Dal, Moong Dal (skin less), Moong Dal (chhilkka), Moth Matki, Rajma, Ragi, Soyabean seeds, Toor Dal, Urad Dal, white peas is available under one roof. A part from this khapli atta which is good for diabetics due to a low glycemic index is also available.

A part from this, there are multiple nuts, oils, spices, fruits that are natural, chemical free and easily available at your door step. This can be the best investment for your health and well-being. So, are you ready to try our products which bring goodness and health!
